

**Sustainable Growth  
with Goodness**

Inspired by its parent company's principle of 'Growth with Goodness', Adani Foundation focuses on translating business growth into holistic development for the communities. It strives to create sustainable opportunities and livelihoods that benefit millions. It is committed to giving back to the society, by Sustaining Growth with Goodness.

# Our Journey towards Sustainable Growth with Goodness

"Excellence happens not by accident. It is a process. You have to work hard to achieve it"

- Dr. APJ Abdul Kalam

Our strive to achieve excellence during the year in creating sustainable impact on the grounds echoed the above words of wisdom from Dr. Kalam.

When we began the journey of Adani Foundation in 1996, we had set a goal to play the role of a facilitator to help people empower themselves. Along the journey, aspiration of our beneficiaries and perspiration of our team members have been the motivating forces.

Adani Vidya Mandir (AVM) Ahmedabad and Adani Public School Mundra created a benchmark by attaining the NABET Accreditation under the Quality Council of India. AVM Ahmedabad has become the first cost-free school in India to receive the NABET accreditation; APS Mundra is the first school in Saurashtra and Kutch region of Gujarat to receive the laurel.

All of us have always believed that development should be sustainable and its impact has to be measurable. Adani Foundation's Gyanodaya is changing the contours of education in Godda with the district moving up the ladder from the bottom five to the top seven in Jharkhand. Through Gyanodaya smart e-learning project in 157 Government schools, more than 40,000 children from this tribal district are learning to excel.

Today we are reaching out to 3.2 million people annually across 2,250 villages in 18 states. We have been encouraged and our quest for excellence has been recognised at many prestigious platforms. GAIMS-GKG Hospital in Bhuj, a successful PPP model in healthcare, was awarded the Kayakalp Award by the Government of Gujarat's Health and Family Welfare Department.

We went beyond our comfort zone to adopt the aspirational district of Narmada in Gujarat to alleviate malnourishment and anaemia

through our Project SuPoshan. SuPoshan has also been recognised at the global stage with the esteemed Public Affairs Asia (PAA) Gold Standard Award for Corporate Citizenship (Community Relations). The project also won the silver award at the 53rd SKOCH State of Governance Summit 2018 and the Dainik Jagran CSR Awards for exceptional contribution towards Public Health.

Like every year, our teams went out of the way to help people in times of crisis. One of the devastating natural disasters that struck the country this year was the floods in Kerala, in August. Within hours of the calamity, our on-ground teams worked relentlessly, participating in rescue coordination and flood relief activities in the worst affected areas. The team of staff and volunteers, travelled through nights to remote villages distributing thousands of relief kits that included rations, clothes and other necessary supplies. The efforts continued later in the relief camps too. Once the flood waters receded, the houses, school buildings, hospitals and even places of worship needed massive cleaning efforts that our team did.

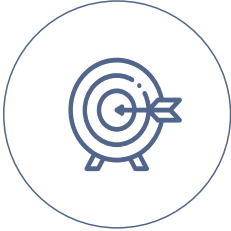

In order to create a sustainable change in the society, it is imperative to take the community along. The community is made up of people from different age groups, having different aspirations playing important roles in the growth of the nation. When each citizen is provided the environment, resources and motivation to excel, the nation will prosper.

Adani Foundation team members and I are thankful to our stakeholders, including the state and central governments, and most importantly the people of this nation for supporting our endeavours and having faith in us. The significant impact visible in the lives of people keeps inspiring us to do more of the same.

# The Story of Change

The growth of the Foundation is a story of our commitment to deepen and broaden our impact. It's also about continuously striving for the betterment of the communities in the vicinity of our areas of operation. The Foundation undertakes interventions in four core areas - Education, Sustainable Livelihood, Community Health & Community Infrastructure Development - as well as through special projects (SuPoshan, Swachhagraha, Udaan, Saksham). We are now increasingly bringing about synergies between our working areas for sustainable impact.

As the Foundation continues on its journey of impacting more lives, the focus is on ensuring sustainability of the impact. This is being driven by increasing the level of community involvement, collaboration with ecosystem players and the capacity building of the field team. Ours is not just a story of commitment but also one of resolve, diligence and perseverance. It is a story of change for the better!

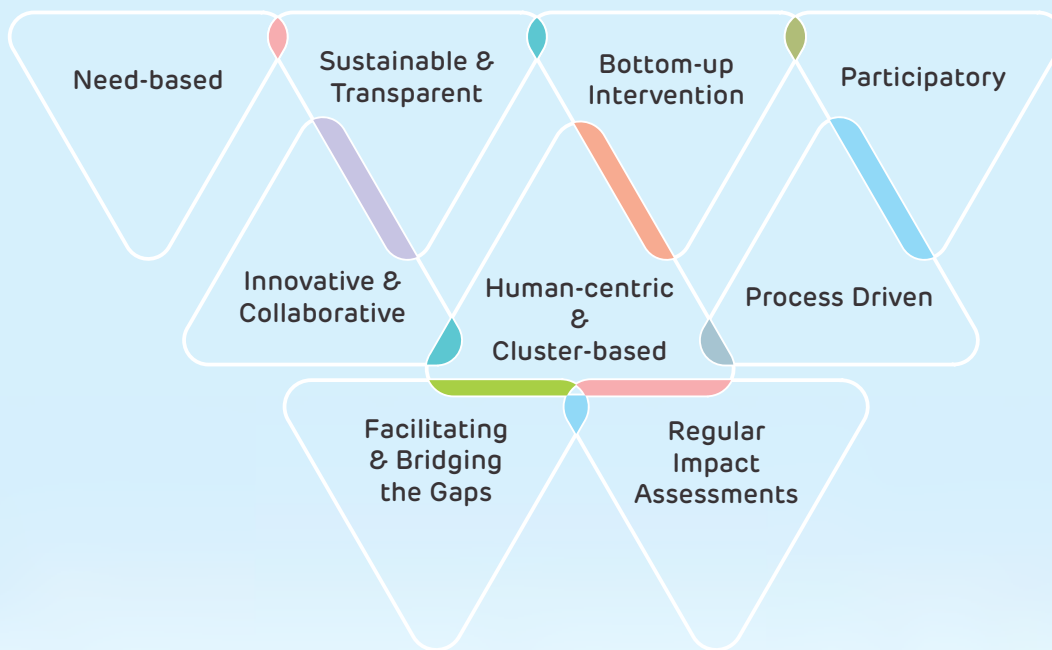

## Vision

To accomplish passionate commitment to the social obligations towards communities, fostering sustainable and integrated development, thus improving quality of life.

## Mission

To play the role of a facilitator for the benefit of people without distinction of caste or community, sect or religion, class or creed – in the field of education, community health and promotion of social and economic welfare and upliftment of people in general.

## Smart Learning for the Smart Generation

Dinesh Prasad Yadav, a teacher at +HS Baksara school, Poraiyahat block, Godda beams with joy when so many students enter the class to learn. The youth in India dream each day for a better life. A life where they have the freedom to make their own choices and to achieve what they want. For millions of kids, this dream never becomes a reality. Through the Gyanodaya project, Adani Foundation and Eckovation, along with the District Administration, strive to turn these kids' dreams into reality.

Gyanodaya Smart Classes provide the students a tool to comprehend the difficult concepts in an easy way and also help teachers to effectively deliver concepts to students. Earlier, many students would refuse to come to school but now they are excitedly coming in the second half to attend the Gyanodaya Smart Classes. After the inception of Gyanodaya, along with television and inverter, the school has also received electric supply.

765 teachers

## Taking Medical Services to the Doorsteps

Meenakshi, from Karayadivilla, is a 61-year-old woman who has seen the harsh side of life. She was suffering from multiple health problems like Diabetes Mellitus, Systemic Hypertension, Coronary Artery Disease (cold), Dyslipidemia and Peripheral Vertigo. A widow since six years, out of her five children, none supported her financially except her widowed daughter. Her daughter worked as a house-help while she supported her with the pension money she used to receive. Poverty was a hurdle that barred Meenakshi from timely consultations and proper medications as she had to pay Rs. 100 one-time charge for visit by auto to the Vizhinjam primary health centre, where she was getting her treatment done. But, all this changed when the Foundation's MHCU began operating in Vizhinjam. With the help of regular consultations and appropriate medication, she could get back on her feet. She is thankful to Adani Foundation for the Health Services.

## Developing and Sustaining Self-reliance

The Foundation's sustainable livelihood interventions provide the poor and needy with livelihood security, thereby promoting growth and development of the marginalised sections of the society.

Sathi, a 48-year-old woman from Venganoor, knows too well how societal obligations can lead to financial difficulties. Her husband is engaged as a labourer in construction works. His meagre earnings were spent off on marriage of his four sisters. When their daughter grew up, they sold off their house to arrange money for her marriage in addition to taking loans from the local money lender. They currently live in a rented house struggling to make ends meet

Sathi was keen on attending the Foundation's livelihood programme after she learnt about it during one of the awareness sessions. Encouraged by her family, she underwent skill and management training. With financial as well as non-financial support, she and four others started a high-tech cleaning group named 'Clean 4 U'. They also received support from the Foundation to prepare a project proposal and getting it approved from the financial institutions.

## A Journey from Being Dependent to Self-reliant

**Soniya Sen from Kalpuria village, Rajasthan,** dreamt of becoming a teacher by attaining higher education. However, being from an economically and socially backward family, she was married at the age of 18. She thought of pursuing her dream after marriage by becoming an Aanganwadi worker, but was denied again.

In June 2018, she came to know about SuPoshan and was eager to work with the team. Considering her abilities, passion and enthusiasm to serve her community, she was selected as a SuPoshan Sangini. Being a housewife in a traditional joint family, Soniya had to overcome a lot of hurdles. In spite of that, her go-getter approach and hard work helped strong-willed Sonia to serve different sections of the society. Perhaps not by just being a tutor, but also by being a guardian and a guide to many. In a short span of 3 months, Soniya has been able to transform the lives of 20 children with respect to nutrition and growth. With developed confidence and capacities, today Sonia supports 1,750 families for better health and nutrition.

## Sewing her Aspiration, Becoming an Inspiration

**Savitriben Rathod** was diagnosed with polio at the age of two, but that didn't stop her from chasing her dreams. With the support of her family, she attended skill training, at a recognised institute. When she got married, her in-laws were reluctant to let her work. Impressed by her zest for becoming a successful entrepreneur, her husband supported her against the wishes of his family. She approached ASDC for help and resumed learning after a gap of six months. Now, she is running her own tailoring shop and earning Rs. 20,000-25,000 per month, adding to the family income. She also teaches and guides six trainees. Along with fulfilling her own aspirations, she has become an inspiration for other women.

## Introducing the Culture of Cleanliness at a Young Age

Studying in Std. 4 in the Hamiribindha Primary School in Odisha, Anil Kumar Nayak is proud to be a Swachhagrahi! Thanks to all the Swachhagraha initiatives undertaken in Anil's school, he knows about the essential rules of cleanliness. He knows how the simple practice of washing hands with soap, before eating meals and after using the toilet, keeps diseases such as diarrhoea, typhoid and jaundice at bay. Not only does Anil follow all the steps for good hygiene, but he also explains it to his family members and neighbours. He is most determined to create a behavioural change within the community by spreading the message of Swachhagraha. And, through the actions of this dedicated Swachhagrahi, the winds of change are blowing not just through his family but also the community.

**INDEPENDENT AUDITOR'S REPORT**

To: The Trustee of **Adani Foundation**

**REPORT ON THE FINANCIAL STATEMENTS:**

**OPINION**

We have audited the accompanying financial statements of **Adani Foundation**("the **Trust**"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2019 and Income and Expenditure Account for the year then ended and Notes, and a summary of significant accounting policies and other explanatory information(herein after referred to as "Financial Statements").

In our opinion, and to the best of our information and according to the explanations given to us, the accompanying financial statements for the year ended 31<sup>st</sup> March, 2019 are prepared in all material respects in accordance with The Chartered Accountants Act, 1949, and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Trust as at 31<sup>st</sup> March, 2019, its financial performance for the year then ended.

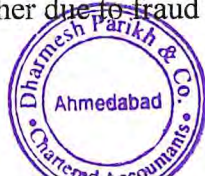

**BASIS OF OPINION**

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Trust in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) and we have fulfilled our other ethical responsibilities in accordance with the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS**

The Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with The Chartered Accountants Act, 1949 that give a true and fair view of the financial position, financial performance of the Trust in accordance with the accounting principles generally accepted in India, including the Accounting Standards issued by the ICAI.

This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

**Independent Auditor's Report**  
**To: The Trustee of Adani Foundation(Continue)**

In preparing the financial statements, management is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to close the Trust or to cease operations, or has no realistic alternative but to do so.

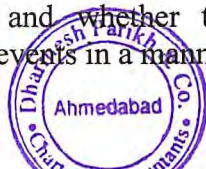

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

**AUDITOR'S RESPONSIBILITY:**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**Independent Auditor's Report**

**To: The Trustee of Adani Foundation(Continue)**

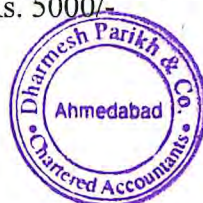

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS**

As required by The Bombay Public Charitable Trust Act, 1950 applicable to State of Gujarat and on the basis of such checks as we considered necessary and appropriate and according to information and explanation given to us during the course of audit, we report

1. The accounts are maintained regularly and in accordance with the provisions of the act and the rules;
