Adani Foundation chairperson Dr Priti G Adani, who is also chairperson of the governing body of the Adani-KISS Residential School, visited the KISS here on Tuesday.

KISS is the role model for all towards social transformation, said Dr Adani on the sideline of her visit.

The first governing body meeting of the residential school was held under the chairmanship of Dr Adani in the presence of KIIT & KISS founder Dr Achyuta Samanta and other members of the governing body. The school infrastructure work would start very soon and be completed within six months, it was decided.

Addressing KISS students, Dr Adani said, " I have never seen 10,000 girls together. KISS is giving best education as it's evident from your glowing faces. Everyone knows that girls have to be educated to become virtuous citizens."
